A big new discovery in cigarette blending

The big thing about Chesterfields is their unique blend. The *Chesterfield blend* is an entirely new combination of tobaccos. This blend is the most important new development in cigarette making in 20 years.

As a result, Chesterfields produce a totally new kind of cigarette enjoyment—they satisfy! Just like a "bite" before bedtime satisfies when you're hungry.

But with all that, Chesterfields are *MILD*, too!

This new enjoyment (satisfy, yet mild) comes *ONLY* in Chesterfields because no cigarette maker can copy the *Chesterfield Blend*.

No Squeal From Bollinger

There is no squeal coming from Bollinger county about "democratic extravagance" at Jefferson City. Last year this county paid \$3,763.34 into the state treasury and took \$13,198.82 out of the state treasury. In other words the state government last year was run at a profit to Bollinger county in the sum of \$7,435.48. The state administration isn't costing Bollinger county a single penny, and ninety-five other counties in this state are in exactly the same condition.

In the face of these facts, Judge Lamm's charge of extravagance falls to the ground. The democratic state government appeals to the taxpayers of Bollinger county.

Requests A Correction

I want to ask Dr. A. J. Speer to make a correction of his statement in his speech at Bessville, charging me with having three clerks in the last legislature, and that one of them came home in the spring, sowed his oats, went back to the legislature and drew full pay for the whole time. This statement was corroborated by his colleagues, Mr. Johnson and Mr. Yamnitz.

Now, Dr. Speer or any other candidate has a perfect right to discuss my official record, but I do object to their making false statements as to my record. I want to make this statement in regard to the appointments of clerks in the legislature. I only had the appointment of one clerk in the last legislature and had at no time more than one clerk on the pay roll. Here is one thing perhaps Dr. Speer and perhaps others may not understand in regard to the appointment of clerks. After the representative has made his appointment he has nothing more to

do with the clerk because he comes under the jurisdiction of the chief clerk.
C. J. SHARROCK.

The Stock and Products Show, October 27 and 28.

The committees have prepared the premium list for the show to be held Friday and Saturday, October 27 and 28, and they will be sent to anyone interested, by E. W. Clippard, secretary. On account of the great interest, it was concluded that the courthouse would not be large enough to display all the exhibits, so the use of the lower floor of the Masonic hall has been obtained also. The show is divided into six departments, as follows:

Orchard Crops, Robert Drumm, Jr., manager, 24 different classes of exhibits.

Textiles, Mrs. H. M. Smith, manager, 42 different classes of exhibits.

Field Crops, A. A. Farnsworth, manager, 50 different classes of exhibits.

Garden Crops and Household Economics, Mrs. M. F. Kinder, manager, 73 different classes of exhibits.

Live stock, J. A. Taylor and C. A. Hahs, 36 different classes of exhibits.

Athletic events, H. A. Jamison and L. A. Smith, 7 contests.

About \$100 in cash prizes will be given. The exhibits will be judged by men and women from the University and normal. All exhibits must be entered by noon on the first day. The stock will be judged the first day, directly afternoon. A feature of the livestock show is a grand parade of all the live stock entered directly afternoon on Friday just before the judging starts. All stock entered, except hogs, must enter this parade. Any further information desired will be furnished by E. W. Clippard, secretary, or the

managers of the different departments. Ask for a premium list and bring your stuff in and show what you can do. There will be no entry fees.

Dental Preparedness

What is the most important attribute of a soldier?
Good feet? No.
Good eyesight? No.
Good brains? No.
What then? Good teeth.
A soldier may have good feet, good eyesight and good brains but if he has bad teeth, he can't eat. If he can't eat he can't march near enough to the enemy to see him and use his brains to fight him.
How does a soldier get good teeth? By having good teeth in childhood.
How do children keep good teeth? Through being taught by their mother how to keep their teeth clean and having their teeth looked after while they are growing. This makes good teeth for future soldiers.
It would seem then as though the first patriotic duty of a mother was to keep her children's teeth in good condition. It is.
